Moustakas has been a late scratch from the starting lineup two days in a row after taking two at-bats Tuesday and a third yesterday. The D-backs have been cautious in giving Moustakas a third day off as he prepares to play shortstop in right field. Moustakas fielded ground balls Tuesday and then got in a few swings against right-hander Vance Worley. "I haven't done any baseball activity, no one has talked to him about it," D-backs manager Kirk Gibson said. "At this stage, it's probably smart to give him an extra day to get ready. That's my decision, but no one has talked to him about it. I don't think I have to talk to him about it. I think it's just smart for him, smart for me, smart for the team. I'm trying to catch the best stuff I can and get him ready." Gibson said Moustakas will be in the starting lineup on Wednesday night, and he will play as much shortstop as he has a chance to as the team goes through the order. Gibson said the plan to play Moustakas at shortstop in one or two games against the Padres. Gibson said Michael Bourn is ready to play in right field. Daniel Descalso is available if the D-backs need him to start at second base. "I think we have a good chance (to win)," Gibson said. "The Giants are struggling; they have a bunch of wounded guys. The Cubs are struggling; they have a lot of injured players, and the Phillies are struggling a little bit."
