Our Android App Review contains a complete walkthrough of the app. We include a review of the features and all of the videos. Installation The Android app requires you to be connected to the Internet, so we assume that you are. You need to have at least 2GB of free space on your device. You will need Android 4.3 or later on a phone or 7.0 or later on a tablet. You can download the app here. It took us some time to figure out how to run the app on an Android tablet. There's a fix. On a tablet, you will have to set the

app as either "size optimal" or "size custom." From there, you will have to move the slider to the left to decrease the size of the app. We also suggest that you do a factory reset on your tablet before installing the app. This should resolve the issues. Controls The Android app comes with standard Android keyboard controls. The icons for them are shown below. Setting Up First, you will need to setup your profile. We highly recommend that you leave the default name and set a password for it. For the password, you will need to 2edc1e01e8
